Identifying trade-offs
This tool helps to set out the multiple actions you need to take in order to achieve your teams vision and purpose; by identifying what you currently do and what you need to do, the team can recognise what actions take priority over others.

How do you organise your team to work effectively?	What skills & attitudes do you need?	How will you work? What methods & tools are essential?	What space is needed to for your team work to flourish?	What characterises the ownership of the team & how is it funded?	How is the team positioned within the government & what is the mandate?	What is the governance model? How do strategic decisions & priorities get made, by who?	What is the core narrative & brand of the team? What is it known for currently?
